

Senior/Class Underwriter - Management Liability

Euclid Financial & Professional Risks (EFPR)

London (City) | Full-time

Role Overview

Euclid Financial & Professional Risks is seeking an experienced Senior/Class Management Liability Underwriter to support the continued growth of our Financial Lines portfolio.

The successful candidate will be responsible for underwriting a broad range of management liability risks, including Directors' & Officers' Liability, Crime, Employment Practices Liability, Fiduciary Liability and related financial lines products. The role will involve significant broker engagement, portfolio management responsibilities and active participation in developing Euclid's underwriting proposition.

This is an opportunity to join a specialist Lloyd's coverholder, where underwriters are empowered to make decisions, build meaningful broker relationships and contribute directly to business strategy and growth.

Key Responsibilities

Underwriting & Portfolio Management

- Underwrite new business, renewals and mid-term amendments.
- Analyse risk information, financial statements, insurer reports and other relevant documents to evaluate exposures.
- Develop profitable portfolios in line with Euclid's underwriting strategy and appetite.
- Present complex or referral risks to capacity providers where required.
- Ensure underwriting decisions are documented appropriately and supported by robust rationale.
- Monitor portfolio performance, rate adequacy, aggregation exposures and emerging trends.
- Participate in peer review and underwriting governance processes.

Broker Development & Distribution

- Build and maintain strong relationships with London Market and regional brokers.
- Actively market Euclid's underwriting proposition through broker meetings, presentations and market events.
- Identify new business opportunities and sources of profitable growth.

- Deliver high service standards and respond promptly to broker enquiries.
- Represent Euclid at industry events, conferences and networking activities.

Product & Market Development

- Contribute to development and enhancement of management liability products and policy wordings.
- Monitor legal, regulatory and market developments impacting management liability classes.
- Support innovation initiatives and development of new underwriting opportunities.
- Provide technical input into marketing materials and thought leadership content.

Portfolio Analytics & Reporting

- Review underwriting performance against plan and profitability targets.
- Support production of underwriting management information and portfolio reporting.
- Assist with business planning, forecasting and performance analysis.
- Contribute to fair value assessments, Consumer Duty reviews and product governance processes.
- Work closely with finance, operations and compliance teams to ensure accurate reporting and oversight.

Capacity Provider & Stakeholder Management

- Maintain strong relationships with carrier partners and delegated authority stakeholders.
- Support regular portfolio reviews with capacity providers.
- Assist in preparation of underwriting and performance presentations.
- Collaborate with claims, operations and compliance functions to achieve business objectives.

Leadership & Team Development

- Support and mentor junior underwriting staff.
- Share technical expertise across the underwriting team.
- Contribute to a collaborative, high-performance culture.
- Assist management with strategic initiatives and special projects.

Skills & Experience

Essential

- Significant underwriting experience within the Management Liability class.
- Strong knowledge of D&O, Crime, EPL, Fiduciary and related management liability products.
- Proven broker relationship management and business development skills.
- Strong technical underwriting and risk assessment abilities.
- Excellent negotiation and communication skills.
- Strong analytical and commercial judgement.
- Ability to work independently within a delegated underwriting environment.
- Experience using underwriting systems and Microsoft Office applications.

Desirable

- 10+ years within the Management Liability class.
- Strong relationships with UK and London Market Management Liability brokers.
- Experience underwriting on a lead basis.
- Experience using AI tools and data analytics in underwriting processes.

Qualifications

- ACII qualification or progress towards ACII preferred.
- Degree or equivalent industry experience preferred.

Our Offering

- Opportunity to play a key role in a growing specialist MGA.
- Significant underwriting authority and decision-making responsibility.
- Exposure to complex and bespoke management liability risks.
- Direct engagement with capacity providers and senior market participants.
- Collaborative, entrepreneurial and growth-focused environment.
- Opportunity to contribute to product innovation and business strategy.
- Competitive salary, performance-related bonus and benefits package.

About Euclid Financial & Professional Risks
